

MTS Technologies, Inc.

Management & Technical Services

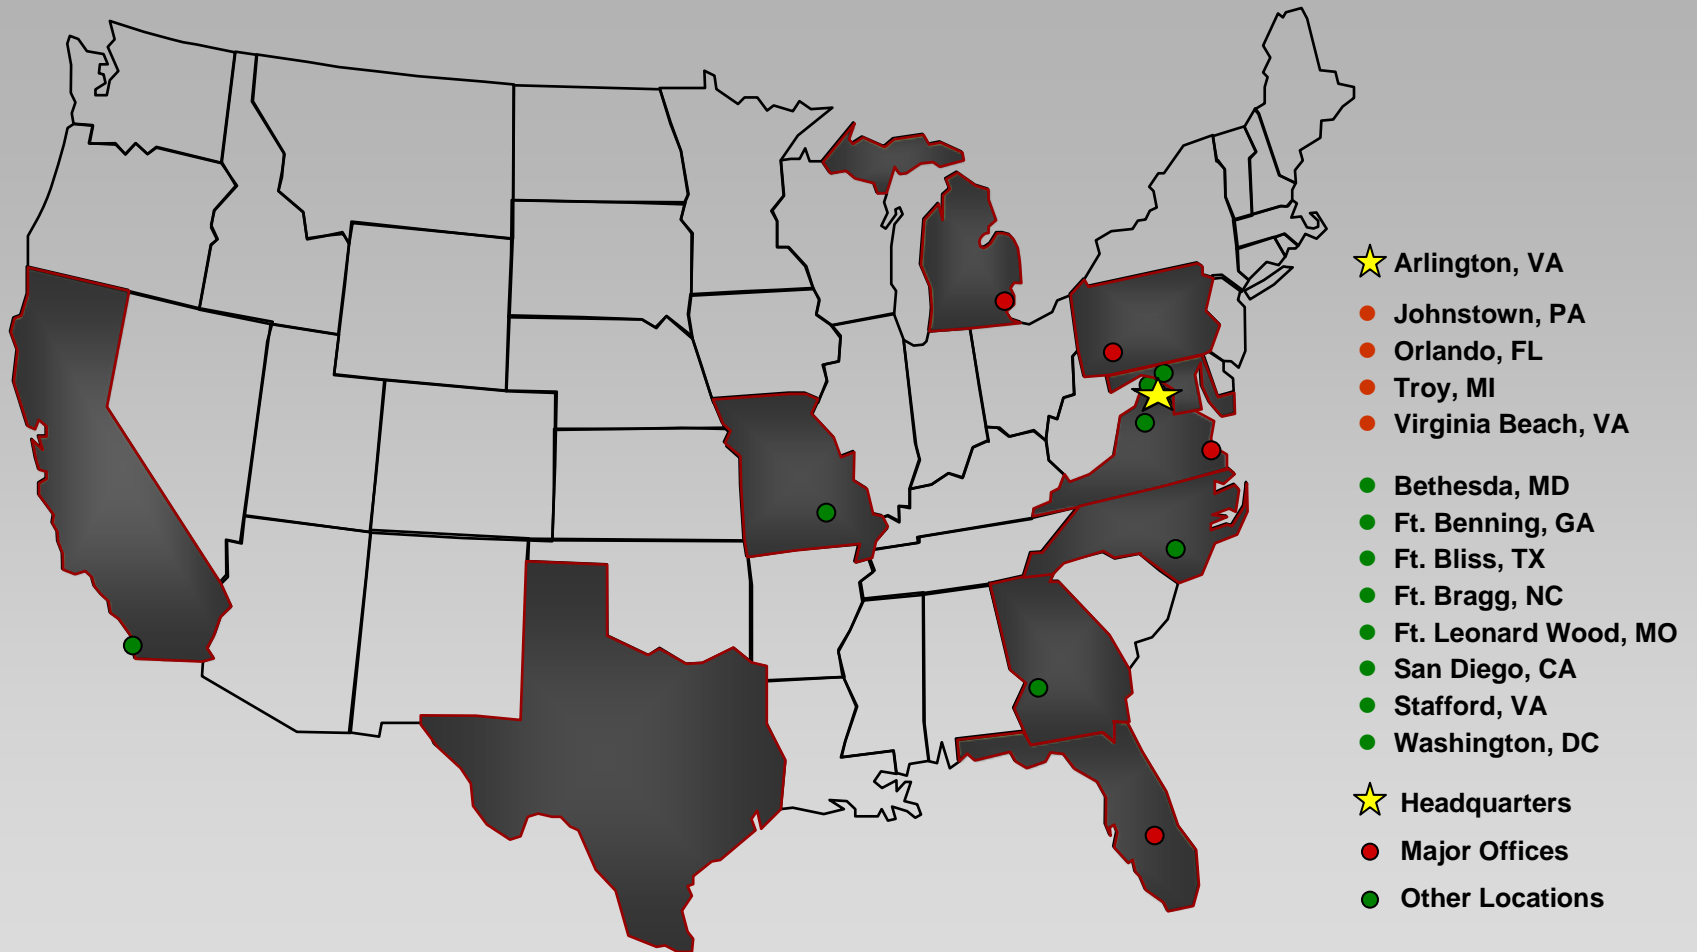

Information Assurance Overview

Focusing On
TOMORROW'S
CHALLENGES . . .

TODAY!

MTS Locations

Core Business Areas

- Information Assurance
- Systems Engineering
- Business and Management Consulting
- Systems Analysis and Integration

Expertise

- Information assurance (IA)
- System security engineering
- Information system architectures
- Hardware and software engineering
- Vulnerability analysis
- Program management
- Damage control
- Disaster management
- Automotive diagnostics/telematics
- Computer aided design and drafting (CADD)
- Medical informatics
- Military operational medicine
- Modeling and simulation
- Requirements analysis and documentation
- Systems analysis
- Technology assessments
- Training and technical manuals
- Voice interactive technology
- Logistics

Information Assurance

MTS Technologies, Inc. (MTS) Information Assurance (IA) strengths:

- Delivering DoD IA/Information Security (IS) compliant solutions at competitive prices
- Providing a certified staff that adapts quickly to ever-changing engineering requirements — on time, every time
- Focusing on providing proven solutions to current IA problems while actively preparing for future IA needs

Supplying a Superior, Certified Staff

***MTS* employs certified security and network engineers, expertly trained in certification and accreditation processes for all DoD and federal systems. To date, *MTS* has ensured over 55 systems have been certified and accredited receiving ATOs.**

- CISSP IA Engineers
- Certified Army IA Security Officers
- CMMI Level II
- Experts in Certifying and Accrediting Systems Using DITSCAP, DIACAP, JAFAN, and DCID
- Experts in SSAA/SSP Creation
- In-House Technical Editing Team

Current Capabilities

Ensuring IA compliance, *MTS* satisfies a variety of industry needs.

- Information Assurance (IA)
- Certification and Accreditation (C&A)
- Systems Security Engineering
- Vulnerability Analysis
- Penetration Analysis
- Risk Mitigation
- IA Training

Certification and Accreditation Specialties

- DIACAP
- DITSCAP
- JAFAN
- DCID 6/3
- NISPOM
- HIPAA
- SOX
- SSAAs and SSPs
- Residual Risk Reports
- Risk Mitigation Strategies
- Automated IAVM Plans
- Centralized Auditing Solutions

VH-71A Presidential Helicopter

Lockheed Martin Systems Integration-Owego (LMSI-O)

MTS was selected by LMSI-O as the primary information security subcontractor on the VH-71A Presidential Helicopter program. MTS is also a Supplier of Excellence for three consecutive years providing exceptional IA, IS, and SSE services.

MTS is contributing the following expertise to the project:

- IA/information security support
- Blended system security authorization agreements (SSAAs) in accordance with (IAW) JAFAN 6/3, DCID 6-3, and DOD 8500.2
- Security/penetration testing and evaluation
- Security engineering for the component integrated product teams (IPTs)
- Developed cutting edge security solutions for the highest level of national security

Apache Distributed Mission Training II

PEO STRI/Northrop Grumman Mission Systems

ADMT provides a Joint Army/Air Force training capability in a simulation environment. It leverages existing infrastructure and is conducted in a distributed environment from home bases of participating platforms. The areas of support include:

- AH-64A CMS certification and accreditation achieved ATO
- AH-64A CMS linkage to Distributed Mission Operations Network (DMON)
- Compliance with network, security, and HLA standards
- Development of terrain databases and scenarios for joint F-16/AH-64A training simulations
- Integration testing and engineering

F-35 Lightning II

Lockheed Martin Simulation, Training and Support, Orlando

Autonomic Logistics Information System (ALIS) is an integrated information system consisting of hardware and software that facilitates information exchange with the F-35 affiliates:

- United States Air Force
- United States Navy
- United States Marine Corps
- United Kingdom
- Defense partners in Australia, Canada, Denmark, Italy, The Netherlands, Norway, and Turkey

MTS will assist LM STS, Orlando in providing IA engineering for the ALIS network components consisting of mission planning, operations, and maintenance, and training systems supporting the JSF F-35 Lightning II.

Additional Current IA Projects

- **Indra:**
 - AV-8 Simulators
- **Veraxx:**
 - MV-22 Simulator
 - USMC Training Network
- **DTNG**
- **NGMS:**
 - ADMT II
- **LM STS:**
 - JSF ALIS
 - CCS
- **LM MS2:**
 - IA Training
- **Cubic**
 - ATREP
- **NOVA**
 - SOFPREP
- **Proposals submitted for:**
 - JLTV
 - E2D

IA Training Services

Specific Courses for Specific Needs

- Instructors target learners' needs and simulate their work environments
- All instructors are CISSPs who consistently ensure material is up-to-date
- Courses available at our training facilities or at a location of your choice

Management IA Training:

- Executive IA Training
- Program Management IA Training
- System Security IA Training

Information Security Training:

- Cyber Warfare Defense Training
- Wireless Security Training
- Cyber Assurance Training

DoD 8570.1 Compliance Training:

- CISSP®
- CompTIA Security+™
